September 2024

Welcome back Coyotes.

Please fill out all forms in this registration package for your child(ren). Please take the time to go through all the information regarding your child(ren) and be sure to **update the school with any additional information** that will be relevant to the upcoming school year.

All required forms need to be returned to the school office by Friday, September 13th

If there are any questions please contact the school at 306-677-2393. Or you can email Ms.Brenda Koudelka at bkoudelka96@chinooksd.ca

Student Violence Threat Risk Assessment FAIR NOTICE

Chinook School Division is committed to creating and maintaining school environments in which students, staff, parents/guardians/caregivers and others feel safe. Schools cannot ignore any threat of violence.

What is a threat?

- an expression of intent to do harm or act out violently against someone or something
- may be verbal, written, drawn, posted on the Internet, or made by gesture

Duty to Report

To keep school communities safe and caring, staff, parents/guardians/caregivers, students and community members must report all threat related behaviours to the school principal.

What is the purpose of a Student Violence Threat Risk Assessment?

- to ensure and promote the emotional and physical safety of students, staff, parents, the student making the threat, and others
- to ensure a full understanding of the context of the threat
- to understand the factors that contribute to the person of concern's behaviour
- to be proactive in developing an intervention plan that addresses the emotional and physical safety of the person of concern
- to promote the emotional and physical safety of all

What behaviours warrant a Student Violence Threat Risk Assessment to be initiated?

A Student Violence Threat Risk Assessment will be initiated for behaviours including, but not limited to:

- serious violence or violence with intent to harm or kill
- indicators of suicidal ideation as it relates to fluidity (both homicidal and suicidal)
- verbal/written threats to kill others (clear, direct, and plausible)
- the use of technology to communicate threats to harm/kill others or cause property damage (e.g., computer, cell phone)
- possession of weapons (including replicas)
- bomb threats (making and/or detonating explosive devices)
- fire setting
- sexual intimidation or assault
- gang related intimidation and violence
- hate incidents motivated by factors including, but not limited to race, culture, religion, and/or sexual orientation

What Parents and Students Need to Know

- any threat must be reported to the school principal
- investigation may involve the student services counsellor, the police of jurisdiction, or other community agencies
- investigation may involve locker or personal property searches
- interviews will be held with the person of concern and other students or adults who may have information about the threat
- parents of students who are directly involved will be notified
- threatening behaviour may result in disciplinary action
- an intervention plan may be developed for the student making the threat and a support plan developed for any individuals targeted by threats

The information in this brochure reflects the thinking and work of J. Kevin Cameron, Director of the North American Center for Threat Assessment and Trauma Response.

The complete Violence Threat Risk Assessment Protocol may be found on Chinook School Division's website at www.chinooksd.ca.

Chinook School Division Responsible Use of Technology Policy (K-6)

Computers and other technologies can be fun, but there is also a serious side to their use. The equipment is expensive to buy and to maintain; students need to treat equipment with care and respect. They need to remember that using the computers is a privilege; if they abuse them or use them inappropriately, they will lose that privilege.

They also need to look after themselves. Not all information that is available through the use of computers or the Internet is appropriate for students. Also, students need to take care in communicating with strangers over the Internet.

What is Appropriate Use?

For students in grades K-6, **Appropriate Use of Technology and the Internet** includes only work which has been assigned by a teacher or approved by a teacher.

How Do I Know What's Inappropriate Content?

The Students' Over-the-Shoulder Rule: If you would not be comfortable with a parent watching what you are doing over one shoulder and a teacher over the other, then you probably shouldn't be doing it. If you accidentally stumble upon content/information that you feel is inappropriate, tell your teacher or another school employee immediately.

How do I Ensure My Personal Safety?

Protecting yourself on the Internet is not all that different from protecting yourself in real life. To ensure your own personal safety, you should:

- Not give out any personal contact information, for yourself or anyone else. This includes your address or phone number.
- Not agree to meet with someone you have met online without your parent's prior approval. Your parent(s) should accompany you to any such meeting.
- Promptly tell your teacher, your parents, or other school employee any message/contact you receive that is inappropriate or makes you feel uncomfortable.

Personal Responsibility - A Message to Students:

When you are using the school's computer system, you may feel like you can easily break a rule and not get caught. This is not really true. Even if it were true, you need to remember that there will always be one person who knows that you did something wrong – you. The way you make use of the computers in the school says something about the kind of person you are. The purpose of this policy is to help you make the right decisions – for your own good.

PARENTAL CONSENT Photo/Video/Media Release

CHINOOK PUBLICATIONS

During the school year there are occasions when photographs of your child may be taken by staff of Chinook. Your authorization to use photos of your child in school division publications (brochures, annual reports, newsletters, etc.) is requested. Occasionally, student work samples and video clips may be used as well. Student names will not appear in these publications unless additional permission is granted.

The school division website (chinooksd.ca) contains school news, information and links to school websites and social media sites (ex. Facebook, Twitter, Google+, etc.). These online publications and tools are used to help the community learn more about our schools and allows us to highlight student achievements and school or school division activities and news.

Student photos may be posted online to showcase particular events or activities. Photos of large groups, or action photos where students cannot be identified, may be posted without parental permission. Personal information may be used to recognize student accomplishments or participation in academic or extra-curricular activities. Photos and videos may be utilized for instructional and Teacher Professional Development purposes as well. Sites may include links to media sources that include articles, photos and video of school and school division activities.

NEWS & EXTERNAL MEDIA

From time to time the news media may cover events or activities at your child's school. Whether or not you have concerns about your child participating in media coverage at school (being photographed, video taped or interviewed) it is important that we know your wishes. Media coverage may include the use of your child's name. All types of media outlets cover Chinook and school events, including but not limited to: newspapers/newsletters, radio, television/video and online.

It is standard practice for media professionals to gain parental permission at events where they wish to photograph/film/interview/name a child.

DRIVER AUTHORIZATION FORM

Name of Applicant – please print clearly

It is strongly recommended that all persons transporting Chinook students and Chinook students that have permission to drive themselves and/or other students carry Third Party Liability Insurance in addition to the basic insurance that you receive when you purchase your license plates. This recommendation is designed for your protection. Chinook School Division's insurance carrier recommends a package policy of two million dollars as being sufficient. You may elect to increase your coverage for any amount up to that figure but it is not compulsory that you do so.

I have a valid Driver's License # _____.

I have read this document and acknowledge the above recommendation.

Signature of Driver

Date

I authorize the above mentioned driver to serve in that capacity for the _____
school year.

Signature of Principal

Date
